RACK-A-TIERS®

EFERGY ELITE *Classic* Part# EF003

MONITORING SYSTEM THAT WIRELESSLY MEASURES ENERGY USAGE

The Efergy Elite Classic wirelessly tracks energy usage and updates the monitor every 10 seconds, making it easy to see where energy is being used in real-time.
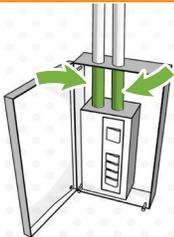

No need for a separate meter base to monitor multiple suites—simply install and start tracking instantly.

With its memory function, you can view energy usage for today, yesterday, the past week, or month. The monitor also displays daily averages, helping you identify patterns and reduce usage by adjusting your habits.
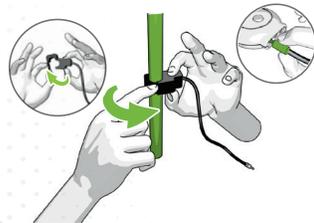

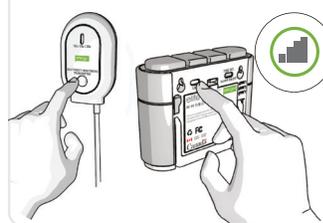

## Energy Monitors: How to Install

1 LOCATE YOUR LIVE FEED WIRE

2 ATTACH THE SENSOR

3 LINK THE TRANSMITTER

4 MONITOR - REDUCE - SAVE

10s / 15s / 20s

efergy®

ELECTRICITY MONITORING TRANSMITTER

ENERGY NOW
