

## PART# CT1100 - CABLE TRUCK

<b>Product Name</b>	Cable Truck
<b>Brand</b>	B.E.S Mfg
<b>Part Number</b>	CT1100
<b>UPC</b>	62591291100

### DESCRIPTION

The Cable Truck has 4 axle positions and a solid steel plate for transporting material on the job site. CT1100 cable caddy hand truck takes the hassle out of installing bulk cable. Pull cable conveniently and safely from a sturdy lightweight frame. Handles multiple spools on the 26" wide crossbar.. 14" clearance from floor to crossbar. When not in use, the Cable Reel Holder folds flat for easy storage. It is a collapsible wire reel/spool holder that can be quickly assembled or disassembled for on-site use and easy storage. This model consists of two heavy-duty tempered steel tripods, welded and finished in tough, purple powder coat finish that slide together with a standard 1/2" conduit to form a stable platform for your wire reels (reel/spool not included).

### FEATURES
