

Product Name	Panel Buddy Knockout
Brand	RACK-A-TIERS
Part Number	7WBK100
UPC	625912711006

Product Weight and Package Dimensions	
Product Weight	0.558 lb (253 g)
Product Package Dimensions (L x W x H):	36.83 x 8.89 x 4.06cm

Product Material	Steel
Product Type	Knockout removal
Colour	Black

Product Features

- Includes (1) panel buddy and (1) modified screwdriver
- Easily opens knockouts in electrical panels and prevents damage to the panel or drywall
- Modified screwdriver has a bent shaft to make it easy to reach the knockout by maneuvering the screwdriver
- Panel buddy securely fits on the edge of the panel and has a hole for the modified screwdriver to go through, which increases leverage when pushing out the knockout and protects the drywall surface from rubbing against the screwdriver
- Perfect tool kit for electrical, security, alarm, and datacom panels
- Lifetime warranty
- **Warning:** Do not use kit near live circuits.

Step By Step Instructions:

After removing the panel cover place the panel buddy on the edge of the panel in front of knockout to be removed. Next insert the modified screwdriver through the hole and between the drywall under the knockout. Push to loosen the knockout. Using the screwdriver, remove panel knockout.
