

<b>Product Name:</b>	<b>Open Splice Junction Box</b>
<b>Brand:</b>	<b>RACK-A-TIERS</b>
<b>Part Number:</b>	<b>JB400</b>
<b>UPC:</b>	<b>625912324008</b>

<b>Product Weight and Package Dimensions</b>	
<b>Product Weight</b>	0.23 lbs
<b>Product Dimensions (L x W x H)</b>	4.25" X 4.5" X 2.75"
<b>Product Package Dimensions (L x W x H)</b>	4.25" X 4.5" X 2.75"

<b>Product Material</b>	<b>Box:</b> Fire-resistant polymer <b>Screw:</b> #8 X 5/8 Pan HD Phil SMS Z/P
<b>Product Type</b>	Junction Box
<b>Colour</b>	Black
<b>Quantity</b>	1

**Product Features**

- U.L. Listed in the U.S. and Canada
- 25.8 Cubic inches of volume.
- Slots for wiring on four sides of the junction box that fit NM cable sized 14-2 with ground to 10-3 with ground.
- Made in the USA.
- **SAFE** – Developed through rigorous laboratory testing, this j-box (junction box) is built with fire-resistant polymer designed to meet U.S. (U.L. 514C) and Canada (CSA C22.2 # 182) safety codes. Safely enclosing open wire splices is your legal responsibility and this wire cover is the most effortless method.
- **SOLID** – The patent-pending one-piece design means fewer parts and pieces to manage. With the hinged lid that folds down to seal the wire splice, you no longer have to re-wire open splices to get them in the junction box.
- **SIMPLE** – The revolutionary 3-step install process makes taking care of this common code violation easy for electricians and DIYers alike and turns junction box installation into a quick job.

**Product Instructions**

1. Turn off electricity
2. Bend doors inward
3. Position wire splice in box
4. Attach box to structure
5. Close lid and tighten screws

**Note: When using this box, the cable must be fastened to the structure within 8 inches of the box as measured along the sheath to comply with exception to 314.17 of the National Electrical Code.**
