

Product Name	The Wire Vortex
Brand	RACK-A-TIERS
Part Number	40001
UPC	625912400016

Product Weight and Package Dimensions	
Product Weight	0.28lbs
Product Dimensions (L x W x H)	6.5" x 5.1" x 2.25"
Package Dimensions (L x W x H)	5" x 7.5"

Product Material	Delrin 500P
Product Type	Wire Pulling Guide
Colour	Green
Country of Origin	China

Product Features

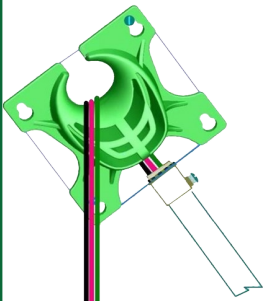

If you need an extra pair of hands on the job, try the Wire Vortex. This wire pulling guide fits on a standard 4" square box and saves you a ton of time when pulling wire. Stop tangling and damaging your wire when feeding through a junction or pull box as the wire vortex guides wires smoothly. Instead of having one worker pull at one end and the other worker feeding the wire, the Wire Vortex turns it into a one man job by guiding your wire through one end while you pull from the other.

- Avoids tangling, and protects wire from damage when pulling.
- Can pull wire in all 4 directions. Use for standard (shallow) or deep boxes.
- Built with durable, impact-resistant plastic.
- Easy to slip on and off.

HOW TO USE THE WIRE VORTEX

1. The Wire Vortex is directional. See photo.

2. Start your wire pull before mounting the Wire Vortex on the box.

3. Hook the Wire Vortex onto the wires and mount to box.

4. The Wire Vortex will align the wires to the conduit entrance providing for a smooth and easy pull.

5. The Wire Vortex has a shallow side and a deep side to accommodate shallow and deep 4" square boxes. Mount the Wire Vortex onto the box in all four directions. The pressure from the wire pull will hold the Wire Vortex on the box.
