Product Features

Perfect for wire, cable, tape, ribbon, string, rope and chain. The Pocket Spinner utilizes 1/2" EMT conduit for the legs and axle.

- Knockdown portable design.
- Adaptable to a mix of reel sizes, shapes and quantities.
- Compact, portable and easy to set up.

Instructions

1. Loosen Wing-Nuts.
2. Remove protective feet from inside each Pocket Spinner.
3. Cut legs approximately 14" inches long and an axle your desired length using 1/2" EMT.
4. De-Burr all ends.
5. Insert legs into Pocket Spinner, finger tighten wing nuts.
6. Push on protective leg tips.

Note: Larger, heavier reels wire can be used with the Pocket Spinner by sleeving a larger size conduit over the half inch EMT axle.
