

# KICK WEDGE

Level out your 90 degree kicks and get PRO results when bending conduit

Designed to assist you in performing 'leveled kicks' when making 90 degree conduit on uneven or variable surfaces

- ✓ Make accurate 90 degree bends on variable and uneven surfaces giving you top-notch and professional looking results
- ✓ Affordable and lightweight, a convenient tool to bring with you to any job site
- ✓ Made of durable material that will last you a lifetime of use

Compatible with: **1/2"**, **3/4"**, **1"** and **1-1/4"** conduit sizes

PART #57090

## PERFECT KICKS FOR 90 DEGREE BENDS IN 3 EASY STEPS

#1

### STEP 1

Bend your first 90 on the conduit you're working with and then mark out where you want your kick.

#2

### STEP 2

Determine which tier on the Kick Wedge will allow you to perform a leveled kick when working on an uneven surface.

#3

### STEP 3

With your conduit now leveled, perform your kick using your bender and you're done!
