

SPECIALTY ELECTRICAL TOOLS

Patent Pending

USGUARD™
PANEL FILLER

Part# 79810 (5 Pack) - Compatible with push on type THQL, BR, QP, HOM & CHOM.

Electrical panel filler that installs right onto the busbar of your panel instead of the front cover to prevent electricians from making direct contact with the busbars.

SAFE - Limits the risk of shock and arc flash hazards.

SECURE - Covers open electrical panel slots better than alternatives and provides coverage of the busbar at the same time with the panel cover removed or installed.

Type QO version coming early 2026

OLD WAY

Cheap blank plates come off with cover panel.

NEW WAY

BusGuard stays on the bus block for increased safety!
