Product Features

Crackit Bracket - Modular Wire Support System

Description:

The Crackit Bracket is a new game changing system for running wire in attics, basements, along joists, and beyond. Mount it as a single 12-hole bracket or split it into 3 separate 4-hole sections for clean, customized wire runs. Easily add or remove wires from existing systems to adapt to any job and get more bang for your buck.

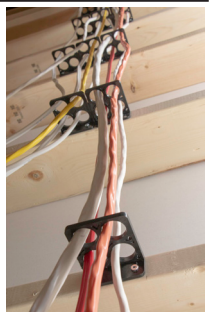

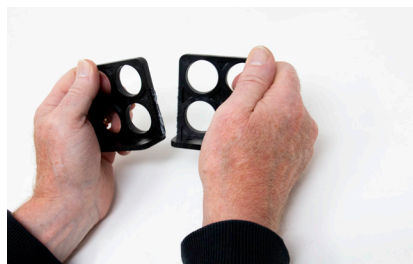

Features:

Each piece contains 12 holes or (3) 4-hole pieces when split apart.

Made in USA.

ETLC Approved.

Follows standard wire fill calculation guidelines.
