Product Material:	Machine Aircraft Aluminium	Machine Aircraft Aluminium
Product Type:	Wire Bending	Wire Bending
Country of Origin:	Canada	USA
Fits up to:	500 MCM	750 MCM

Product Features

Save your knuckles by using our Bend-All cable benders! Made with machined aircraft aluminum, these cable benders are extremely strong and durable. They connects to your standard 1/2" ratchet, making cable bending a breeze for you. The Bend-All and Bend-All Sr. can bend cable in a tight meter base where your hands barely fit.

- Connects to your standard 1/2" ratchet
- Bend inside enclosures to the right, left, front or back
- Bend in tight spaces where your hands wouldn't fit
- Made with machined aircraft aluminum
