Product Features

The flexible Driller's Dust Bowl compresses against the ceiling or wall and traps all dust and debris as you drill. The bowl fits most standard drills and hole saws without any adjustments needed.

The drywall dust is trapped in the bowl as you are cutting keeping dust and debris off of your face, and your customer's floor.

Put an end to "unprotected hole sawing" and wrap up with the Driller's Dust Bowl.

- Easy disposal of debris.
- Works with hole saws up to 8".
