EXPLODING VAN CAN

Height: 17" x Diameter: 15"

Height: 7" x Diameter: 15"

PART
#51030

Exploding Van Can is a collapsible trash container built to live in your van or truck. Pop it open, and an internal support spring snaps it into shape, ready to catch scraps, wire clippings, and packaging as you work. It's made from heavy-duty, tear-resistant Polytuf fabric that holds up to daily jobsite abuse, then folds flat to just a sliver of its open size when you're done.

FEATURES:

Dimensions when open: Height: 17" x Diameter: 15"

Dimensions when closed: Height: 7" x Diameter: 15"

SPACE SAVER – Collapses down small enough to tuck behind a seat, under a shelf, or in any leftover corner of the van

POPS OPEN FAST – The internal support spring snaps it into shape in seconds, so it's ready to catch scraps and packaging the moment you need it

BUILT TOUGH – Heavy-duty, tear-resistant Polytuf fabric shrugs off daily jobsite abuse without ripping or wearing thin
